Summary

Computer Science student seeking an internship and other job opportunities in Junior Developer roles to gain firsthand experience. I have strong technical proficiency, coursework and freelancing experience in C++ and Full stack web development. I have participated in several leadership programs. I'm a great bass player too. Thanks for taking the time to look at my resume. I am an international student and require sponsorship for full-time positions.

Skills

- Intermediate C++ (Algorithms and Data Structures)
- Programming in a UNIX environment
- Basic x86 Assembly
- Proficient in English, French and Akan
- Adept in Microsoft Office
- Experience Coding in Linux Shell Environment (BASH)
- Git and GitHub experience
- Graphics Design Experience (Photoshop)
- MEAN Full-stack Development
- Global Financial Markets and Instruments
(Credential Identifier Credential ID WW2SDZ9Z6QDY)

Experience

Charlitex Investments | Johannesburg, GP Apart from shadowing my senior developer, my duties included:

Junior Software Developer (intern)

09/2014 - 12/2016

- Managing the company's network and implementing data integrity and security protocols
- Periodic upkeep of the company's website (front end)
- A bit of customer service exposure by assisting customers with tech-related concerns

My time at the company was very productive. At my departure,

- The company reported reduced security breaches by 50%, a by-product of some security measures, and staff security education initiatives.

- Increased online interactions and bookings due to a revamped and ergonomic website and SEO implementation

Education and Training

1. The University of Texas At Dallas | Richardson, TX
